EDUCATION

WIGWE UNIVERSITY

BSc (Software Engineering)
2024-present

MEVED MODEL INT’L
SCHOOL, PHC.

Senior School Certificate
Examination (SSCE) 2020-
2023.

HYGINUS TOYA ANDRE-ELLADIM

Software Engineering

PROFILE

Software engineering student with practical programming experience in **Python and Java**, and foundational knowledge of **HTML and basic CSS**. Skilled in applying algorithms, logical problem-solving, and structured programming concepts through coursework and independent coding practice. Continuously developing strong software development fundamentals and analytical thinking.

PROFESSIONAL EXPERIENCE

Python Programming

Independent Learning & Coursework

October 2024-2025

Details

- Developed small Python programs using loops, conditionals, and functions.
- Practiced debugging and problem-solving through coding exercises.
- Applied modular coding practices to improve program structure.

Java Programming

Academic Projects

2025-2026

Details

- Built console-based applications using **object-oriented programming concepts** such as classes and methods.
- Strengthened understanding of control flow and algorithmic problem solving.

Web Development Fundamentals

Independent Practice

2024-2025

Details

- Created simple webpages using **HTML** with **basic CSS** for layout and styling.
- Practiced organizing web content using semantic HTML structure.
